stating that "In devising a remedy for the trusts, the Democratic party should

absolutely oppose every effort to authorize a national incorporation or charter-

state commerce, but to control interstate commerce it is not necessary that it

should create corporations that can override state laws. The Democratic na-

sistent with the preservation of state remedies. It suggested a license system-

the license to permit a corporation to do business outside the state of its origin,

upon compliance with the conditions of the license, but the license would not

permit it to do business in any other state except on compliance with the con-

now granted for the sale of liquor. When a federal license is issued for the

sale of liquor, it does not carry with it any immunity from the laws of the

state in which the license serves. The same reasoning should be applied to the

insurance question and to all other questions which involve remedial leg-

Circuit Judge Lindsay resumed the hearing of the Parker ranch case yesterday after an adjournment of several weeks.

The feature of interest in the afternoon proceedings was the production of a number of letters written by F. Wundenberg, to Aubrey, the manager of Humuula sheep station, referring to Eben Low and his plans, and Low's denial of any knowledge of what Wundenberg was referring to in the letters.

Kinney was engeavoring to show that the plans which required for their consummation the removal of A. W. Carter from the management of the Parker ranch and the guardianship of the minor, were in full swing early in 1904. and were connected with a general scheme in which the acquisition of Macfarlane's sheep station at Puuloa, and the Humuula sheep station, figured.

Low, on the other hand, strenuously denied all knowledge involving change of management of the Parker ranch up to within a few days of his appointment by Parker in June and his endeavoring to take possession.

Kinney produced letters, one at a time, from Wundenberg to the manager of Humuula, referring to negotiations between Eben Low and Parker for Humuula, and finally a letter dated in March, in which Wundenberg says: "Negotiations are in full swing regarding Parker's interests not only in Humuula, but the ranch as well. Low and Parker are now at the ranch looking over matters and a settlement may be reached at any time."

The witness was asked to refresh his memory by reference to this letter, but insisted that he knew nothing of the negotiations mentioned. In a subsequent letter dated May 9, Wundenberg says: "We are still working matters up. Eben Low is here and pushing matters for all he is worth." But this also failed to refresh the witcould be referring to.

A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which doe ore give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that custain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of herry for all the ordinary affairs of life. Now, what alone is absolutely essential in all such causes is increakaged virality—rigour—vital streends the day this may throw off these morbid feelings, and experience be more certainly secured by a course of the celebrated life-raviving tonic

"Gawf, is what you refer to, and the boy was a caddy," explained the Court lucidly. While endeavoring to put certain questions to Bertelmann, Milverton

found a mountain of objections made by Bertelmann's counsel piling up. "Your honor, when I begin to get his witness in a tight corner, he begins objecting and without reason," protested Milverton.

"You will have a sweet time getting me in a tight corner, let me tell you, the rejoinder.

He explained to the court that he had been delayed in his directory scheme because he spent four months in jail at the time he was undergoing trial in the Federal court.

STRANGE CASE OF PROFESSOR CURT'S

Editor Advertiser: I wish to explain the case of G. C. Curtis, a guest of the house on or about June 20, 1905. On Saturday of June 17, Mr. Curtis came to me and asked how he might climb Mauna Loa mountain. To him I stated that we never let our horses for that purpose, and he says why not? Well, because they often never live to return or perhaps die in a few days after. I said he would have to go to Kapapala ranch (Mr. Monsarrat's) and there he would find a native man who could fit him out with mules, horses, etc., for the climb. How much would it cost? I said \$75 for one going up. Well, could I let him have a horse ride to Kapapala ranch with, and I said yes. So I rang up Monsarrat's but he was out. I then rang up Mr. Gec. Lycurgus, Hilo, and asked him if the horse could go to the ranch with Curtis and that he would send it back by stage the next day. curgus said yes, so I started him away, with the understanding that he was to telephone me on his arrival, and inform me if the horse was on its way back. Was worried about it, so on Sunday I tried to telephone, but could not get an answer, so on Monday a. m. early I rang up the ranch and no one was there except a native and Mr. A. B. Loebenstein, a guest at the time, interpreted to the native for me, and he said the man had gone to the mountain on Sunday p. m. and ridden our horse, which he was forbidden to do, as it was not a horse for that climb

On the following Tuesday night on his way to Volcano House ex-Sheriff Searle passed him and told us he was leading the horse about 5 miles away, and that the horse was very lame. He arrived about 8 p. m., turned the horse to the stable, never said I, yes or no to anyone. Went in to dinner and the following morning Mr. Lycurgus asked him about the trip and horse, etc. He said, "What will it cost me?" Mr. Lycurgus said \$75. He absolutely refused to pay it. We not only lost the use of the horse, the four days he was away, but for three weeks after was stiff, swollen and of no use whatever. You all know the cost of those trips, and know it is more where only one takes it. If a party go up it a little less. Mr. Lycurgus then told him he would make it \$50 (you must remember it is 18 miles each way to Kapapala ranch before the climb), and he says "Why I can buy any amount of those horses for \$2.50." As he left Honolulu without paying for the horse, we now feel that he had his nerve and got to the mountain and back with all his valuable information for Harvard We doubt If University very cheaply. he has anything to do with university as he said he did, for Mr. a professor of Harvard, said he.had never heard of him.
